Back in Britain my family are fighting over who's the next Duke of Fairfax. The rules say it's me--if I'm married. It's not a trade-off worth making. I could never limit myself to just one woman.

Or so I thought until my world is turned upside down. Now, the only way I can save the empire I built is to inherit the title I've never wanted-- so I need a wife.

To take my mind off business I need a night that's all pleasure. I need to bury myself in a stranger.

The skim of Scarlett King's hair over my body as she bends over . . .

The scrape of her nails across my chest as she screams my name . . .

The bite of her teeth on my shoulder just as we both reach the edge . . .

It all helps me forget.

I just didn't bargain on finding my one night stand across the boardroom table the next day.

She might be my latest conquest but I have a feeling Scarlett King might just conquer me.

A standalone, contemporary romance.
